--SEE OFFICE ACTION ON THE FOLLOWING PAGES--

Claims 1-9, 13, 14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1 "low" is vague; it is subjective.

Claims 9, 10, 13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 9, 10, 13 preferably do clearly limit the meets and bounds of the invention; what follows is not definitely claimed.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 11, 12 are rejected under 35 U.S.C. 102(b) as being anticipated by EPA 361874.

EPA '874 teaches a core granule coated with a dispersion containing a drug (abstract). Nonpareils comprising sucrose are specified (page 2 line 53), 12-32 mesh is specified (page 3, lines 56-58).
